Important information to all users:
Account suspension & deletion
All REDCap user accounts will be automatically suspended after two years of inactivity. In order to keep your REDCap user account active, you need to log into your account at least once every two years. If you do get suspended but wish to keep your account, email redcap@ki.se to get the suspension lifted.
Suspended accounts will be deleted after an additional six months (i.e. after a total of 2.5 years of inactivity). After this, you would need to create a new account to access REDCap again.
Two-step verification using authenticator now mandatory
Since the 20th November 2023, two-step verification using the authenticator app is the only way to log into your REDCap account at Karolinska Institutet. This applies to all users in REDCap, internal and external. If someone working in your project is experiencing issues with signing in and have not yet set up the Authenticator app for their REDCap account, they need to contact us at redcap@ki.se to aquire the QR code.
For more information on MFA and instructions on how to use it, please see the PDF Set up the Authenticator app for two-step verification in REDCap , where both users with KI-ID and external users can follow the steps on how to enable the function.
If you have any questions related to this, please contact redcap@ki.se.
Welcome to REDCap!
REDCap is a secure web platform for building and managing online databases and surveys. REDCap's streamlined process for rapidly creating and designing projects offers a vast array of tools that can be tailored to virtually any data collection strategy.
REDCap provides automated export procedures for seamless data downloads to Excel and common statistical packages (SPSS, SAS, Stata, R), as well as a built-in project calendar, a scheduling module, ad hoc reporting tools, and advanced features, such as branching logic, file uploading, and calculated fields.
REDCap Features
Build online surveys and databases quickly and securely in your browser - Create and design your project using a secure login from any device. No extra software required. Access from anywhere, at any time.
Fast and flexible - Go from project creation to starting data collection in less than one day. Customizations and changes are possible any time, even after

Important information to all users:

Account suspension & deletion

All REDCap user accounts will be automatically suspended after two years of inactivity. In order to keep your REDCap user account active, you need to log into your account at least once every two years. If you do get suspended but wish to keep your account, email redcap@ki.se to get the suspension lifted.

Suspended accounts will be deleted after an additional six months (i.e. after a total of 2.5 years of inactivity). After this, you would need to create a new account to access REDCap again.

Two-step verification using authenticator now mandatory

Since the 20th November 2023, two-step verification **using the authenticator app is the only way to log into your REDCap account** at Karolinska Institutet. This applies to all users in REDCap, internal and external. If someone working in your project is experiencing issues with signing in and have not yet set up the Authenticator app for their REDCap account, they need to contact us at redcap@ki.se to aquire the QR code.

For more **information on MFA and instructions on how to use it**, please see the PDF Set up the Authenticator app for two-step verification in REDCap , where both users with KI-ID and external users can follow the steps on how to enable the function.

If you have any questions related to this, please contact redcap@ki.se.

Listed below are the REDCap projects to which you currently have access. Click the project title to open the project. Read more To review which users still have access to your projects, visit the User Access Dashboard.

Design your data collection instruments & enable your surveys
Add or edit fields on your data collection instruments (survey and forms). This may be done by either using the Online Designer (online method) or by uploading a Data Dictionary (offline method). You may then enable your instruments to be used as surveys in the Online Designer. Quick links: Download PDF of all instruments OR Download the current Data Dictionary
Go to Online Designer or Data Dictionary
Explore the REDCap Instrument Library
Have you checked the Check For Identifiers page to ensure all identifier fields have been tagged?
